## Summary

Full-stack Web Developer skilled in MERN stack, React, and modern frontend frameworks, with additional expertise in data analytics.

## Projects 1

### Resume Scanning Smart ATS

Jan'23 - Jun'23

Full Stack Developer

Developed a full-stack web application using the MERN (MongoDB, Express.js, React, Node.js) stack to automate resume scanning. The application assists employers and HR professionals in shortlisting candidates by analyzing resumes using intelligent algorithms. It supports keyword-based and contextual job matching and offers job recommendations, thereby enhancing the efficiency of the hiring process.

MongoDB Express.js React Node.js

## Achievements

### RainbowAmbassadors(Red Dot Foundation)

Satara, India

Selected as Rainbow Ambassador for Safecity's Rainbow Circles Project – Represented in an Instagram Live session on Gender Equality (organized by Safecity & Red Dot Foundation in collaboration with the U.S. Consulate General, Mumbai. Engaged in meaningful dialogue on promoting inclusivity, gender equality, and awareness within the community.
