- English
- Marathi
- Hindi

PROJECTS

Resume Scanning Smart ATS (MERN Stack) -

I developed a full-stack web application using the MERN (MongoDB, Express.js, React, Node.js)

The Resume Scanning Smart ATS is a web-based application designed to assist employers and HR professionals in effectively shortlisting candidates by analyzing resumes using intelligent algorithms.

It leverages modern frontend and backend technologies to parse, evaluate, and rank resumes against specific job descriptions.

The system reduces human effort and bias while increasing the efficiency of hiring workflows.

It supports uploading of resumes, keywordbased and contextual job matching, Job recommendations .

SKILLS

Basic - Python

Intermediate - Mysql , PowerBI , MongoDB

Skilled - Excel , HTML , CSS
